Comprehensive and flexible solutions

Business consultants for financial institutions

THEMA Consulting provides treasury and risk management solutions for banks, corporate treasuries and asset managers, with the objective of harmonizing their naturally complex operating models.

Based on robust, flexible and scalable solutions, combined with a distinctive clients service approach, our market proposition enables a sharp reduction in our clients' total cost of ownership.

We welcome the highly talented people

Since our founding in 1994, THEMA Consulting has been constantly looking for the best talents with the aim of becoming a trusted leader in the field of treasury & capital markets technology.

Our growth strategy continues to be based on our people: we strive to reach the very best initiative-takers and self-directed-learners who want to join us in up-scaling the business as future leaders.

The leading independent provider for capital markets and treasury solutions
